JACKSON PARK, CHICAGO, U. S. A.

The Field Columbian Museum begs to submit this list of excess and duplicate material for the consideration of kindred institutions and of individual collectors. The specimens and examples contained herein are offered in exchange for an equivalent in similar material. All offers should include as much detail as possible concerning both the specimens and objects desired and those offered as an exchange. Unless otherwise provided it will be understood that the consignee pays all transportation charges in each case. Please address all communications to

Frederick J. V. SKIFF,  
Director.

## **DEPARTMENT OF ANTHROPOLOGY.**

### **ALASKAN ESKIMO.**

## MINERALS.

- 349. Selen-Sulphur, crystallized, Girghenti, Sicily, 2.
- 350. Sulphur, crystallized, " 3.
- 351. Copper, " Lake Superior, Mich., 2.
- 352. Stibnite, " Shikoku, Japan, 3.
- 353. " " Hungary, 3.
- 354. Realgar, Felsobanya, " 2.
- 355. Orpiment Moldavia, Banat, Hungary, 3.
- 356. Galena, crystallized, Joplin, Mo.
- 357. " " Freiberg, Saxony, 4.
- 358. Sphalerite, " Cumberland, England, 6.
- 359. " " Missouri, 3.
- 360. Alabandite, Nagyag, Transylvania, 1.
- 361. Cinnabar, Almaden, Spain, 1.
- 362. Chalcopyrite, crystallized, French Creek, Pa., 2.
- 363. " Caldera, Chili, 1.
- 364. Pyrite, crystallized, Brosso, Piedmont, 3.
- 365. Marcasite on Dolomite, crystallized, Joplin, Mo., 3.
- 366. " crystallized, Cumberland, England, 2.
- 367. " " Folkestone, England, 2.
- 368. " " Joplin, Mo., 3.
- 369. Lollingite, var. Leucopyrite, Edenville, N. Y., 2.
- 370. Bournonite, crystallized, Cornwall, Eng., 4.
- 371. Tetrahedrite, " " " 2.
- 372. Halite, Friedrichsthal, Wurtemberg, 2.
- 373. Sylvite, Strassfurt, Prussia, 5.
- 374. Proustite, crystallized, Chanascillo, Chili, 3.
- 375. Fluorite, crystallized, violet, Cumberland, England, 5.
- 376. " " green, Macomb, N. Y., 3 large,  
3 small specimens.
- 377. Quartz, crystallized, Hot Springs, Arkansas, 4.
- 378. " " Little Falls, N. Y., 100 crystals.
- 379. " " Tavetsch, Tyrol, 2.
- 380. " " Guanajuato, Mexico, 3.
- 381. " " Cumberland, England, 5.
- 382. " " Joplin, Mo., 3.
- 383. Quartz with Actinolite, crystallized, Japan, 4.

- 384. Tabular Quartz, Black Hills, So. Dakota, 2 large specimens.
- 385. Quartz after Crocidolite, cut and polished, 3.
- 386. Amethyst, crystallized, in silicified wood, near Holbrook, Arizona, 10.
- 387. Amethyst, crystallized, Thunder Bay, Lake Superior, 2.
- 388. Heliotrope, Cambay, India, 3.
- 389. Agate, Uruguay, cut and polished, 10.
- 390. Agate, polished ornaments, 15.
- 391. Jasper, polished trays and stands, 10.
- 392. Silicified Wood, cut and polished, Paka, Bohemia, 3.
- 393. " " Holbrook, Arizona, 20.
- 394. " " Bennett Valley, Sonoma Co., Cal., 10.
- 395. Hematite, (Kidney Ore), Cleator Moor, Cumberland, Eng., 5.
- 396. " crystallized, Cumberland, Eng., 3.
- 397. " " Island of Elba, 3.
- 398. Martite, " Cerro Mercado, Durango, Mex., 6.
- 399. Limonite, Lake Superior, 2.

- 498. Amarantite, Sierra Gordo, Chile, 2.
- 499. Herrengrundite, Herrengrund, Norway, 2.
- 500. Wulfenite, crystallized, Bennett Mine, Organ Mts., N. Mex., 3.
- 501. Succinite (Amber), Baltic Coast, Prussia, 4.
- 502. Jet, Whitby, England, 1 polished specimen.

## DEPARTMENT OF ECONOMIC GEOLOGY.

## GOLD, SILVER AND LEAD ORES.

600.	Auriferous Quartz, Okanagon Co., Wash.,	5 lbs.
601.	“ “ Culver Mine, Kittitas Co., Wash.,	$\frac{1}{2}$ “
602.	“ “ California,	25 “
603.	“ “ Minarett Mine, Fresno Co., Cal.,	15 “
604.	“ “ Diamond Creek, Nevada Co., “	50 “
605.	“ “ Gold Hill Mine, Nevada City, Nevada Co., Cal.,	25 “
606.	Gold Ores, New Mexico,	50 “
607.	Auriferous Quartz and Pyrite, Copperopolis Mine, New Mexico,	8 “
608.	Auriferous Quartz, Oro Fino, New Mexico,	5 “
609.	“ “ and Pyrite, Soudan Mine, Hillsboro’ Co, New Mexico,	5 “
610.	Auriferous Quartz, Republic Lode, Las Animas Dist., New Mexico,	10 “
611.	Auriferous Quartz and Galena, Soudan Lode, Las Animas Dist., New Mexico,	1 “
612.	Gold Ore, May Queen Lode, Las Animas, New Mexico,	3 “
613.	Auriferous Quartz, Socorro Co., New Mexico,	50 “
614.	“ “ Merett Mine, “ “	20 “
615.	Gold Ore, Gold Bug Mine, Durango, Colo.,	$\frac{1}{2}$ “
616.	Gold and Silver Ores, Idaho Springs, “	50 “
617.	Gold-Silver-Lead Ore, La Martine Mine, Idaho Springs, Colorado,	50 “
618.	Gold-Silver-Lead Ore, Stanley Mine, Idaho Springs, Colorado,	50 “
619.	Gold-Silver-Lead Ore, Kangaroo Mine, Idaho Springs, Colorado,	15 “
620.	Gold-Silver-Lead Ore, Whale Mine, Idaho Springs, Colorado,	15 “

621.	Gold-Silver-Copper Ore, Hot Pot Mine, Idaho Springs, Colorado,	50 lbs.
622.	Gold-Silver Ore, Pyrite, May Queen Mine, Idaho Springs, Colorado,	75 "
623.	Gold-Silver Ore, Sulphides, Crockett Mine, Idaho Springs, Colorado,	3 "
624.	Gold-Silver Ore, Pyrite, Crystal Mine, Idaho Springs, Colorado,	20 "

948.	" " Sicily,	50 "
949.	Magnesite, California,	50 "
950.	"Tripoli" Seneca, Mo.,	100 "
951.	Soapstone, Madison Co., Va.,	20 "
952.	Verte Antique, California,	25 "
953.	" " Virginia,	20 "
954.	Serpentine, Amador Co., California,	10 "
955.	Marble, Gunnison Co., Colorado,	25 "

## ZOOLOGY.

The absence of the curator of the Department of Zoology on an expedition to Africa accounts for the omission of a list of duplicates in that Department. The Museum has considerable Zoological material for exchange and will naturally acquire much more as the result of the African mission. A second catalogue if possible, will be published in 1897, containing the excess Zoological specimens omitted now and the accessions of the intervening time, including the African duplicates.
